Update: 2020-07-23

The database has 13748 records/profiles

-----  
-----

This list of all records is easily searchable (Ctrl+F). The ID is useful if you wish to check if there is an open 'tree in 7 generations' of interest to you: T7\_open: [https://www.falsen.se/loginT7\\_open.php](https://www.falsen.se/loginT7_open.php). I would be delighted to put your T7 online in the closed directory: [https://www.falsen.se/loginT7\\_closed.php](https://www.falsen.se/loginT7_closed.php) and to give you access.

- The starting point of this database was all persons listed in the family book of Conrad Falsen from 1915
- Persons related to Enevold Falsen and Geneviève Vallée
- Persons having taken the name Falsen or Fallsen
- Some completely unrelated persons, but with interest in genealogy

Please look out for the markers:

§: a distant descendant of Enevold de Falsen (1755-1808)

§?: not yet proved to be a descendant of Enevold de Falsen (1755-1808)

§§: no evidence of relatedness to the family Falsen

§-: Obsolete information
